TECHNICAL DATA

We carefully selected the most delicious base wines made from the Airén grape, the second most planted grape in Spain. The still wine gets vacuum distilled, and the alcohol gets removed with the most modern and gentle process available. Our partner in the Moselle Valley makes sure that we preserve the wonderful fruit and protect the elegant body and mouthfeel. The perfect sweetness is achieved by adding grape must and the additional freshness and balance by sparging the wine with CO₂ bubbles. Bottled in 750ml and in 200ml Bottles (4 packs)
